**MADE IN USA!**

*On a cold, crisp winter day...New Year's 1906...a 21 year old entrepreneur, Alfred C. Fuller, began an enterprise which has become known worldwide as The Fuller Brush Company. From a bench between the furnace and the coal bin in his sister's New England home, young Fuller set out to make, in his own words: "the best products of their kind in the world."*

*Today, The Fuller Brush Company continues this tradition of quality with products that are manufactured in the Heartland of America...Great Bend, Kansas.*

*From all of us at Fuller Brush...thank you for your interest in our products... products manufactured in the Heartland of America.*

① Not for sale in Massachusetts or Wisconsin
